11 Instructions to complete the form

The form shall be completed electronically using the prepared check- or selection-fields. It is also feasible to print it first and fill the information in manually.

Most of the fields are self explanatory. Those probably needing some explanations are listed below:

| | | |
|-----|---|--|
| 4.1 | EFB | Evaluate hardware class (1, 2 or 3) and software type (A, B or A+B) from the criteria stated in CAP 07 |
| 4.2 | Operator | In addition to the phone contacts to the responsible persons give a specific mail address for EFB matters (i.e. the EFB project manager) |
| 5.1 | Make and type | If the hardware used for the EFB is not addressed in the selection, give specific information in the following comment-field. |
| 5.3 | Data storage device | If [other]* is used, more information shall be given under [Remark]*. |
| 5.4 | Data transfer device | |
| 5.5 | Cursor navigation | |
| 6.1 | Operating system | If the operating system used for the EFB is not addressed in the selection, give specific information in the following comment-field. |
| 6.2 | Program(s) based on | If the program used for the EFB is not addressed in the selection, give specific information in the following comment-field. |
| 6.5 | Intentions / Tasks to be done by EFB | List or describe all tasks to be handled by the proposed EFB. |
| 6.6 | Classification | State Classification according to CAP 07 |

When completed, the form has to be printed and signed by the relevant persons. The application package has to comprise the following documents:

- EFB application form
- Extract from OM A/B/C/D containing any information about the EFB such as a system description, limitations, operating procedures and the operator's quality system related to the EFB.
- Compliance checklist(s) for revised Manual(s)
- Any certification documents of concern
